What does "no degradation" of the product mean?

- No visual defects

- No material degradation

- No discoloration

- No cracks

- No impact on use or function of the product

What does it mean to meet the MIL-STD-810H Method 504.3 Contamination by Fluids Procedure?

The tested product is exposed, with continuous contact, to each chemical listed for at least 24 hours (unless otherwise specified), and exhibits no signs of degradation.

Recommended Cleaning Instructions:

Use damp cloth or sponge with preferred cleaning agent and wipe down product. Repeat cleaning process as needed. Do not oversaturate or submerge product in cleaning agent as damage could occur. Kensington evaluated a wide variety of cleaners and disinfecting solutions, but cannot guarantee that no degradation will occur using alternate cleaners or disinfection solutions not mentioned on the previous page.

Wipe Down Approved
